Chief, London Bureau

4 Jan 1948

Chief, FBIB

Time required for processing and transmission of London Bureau file.

1. Further to teletype message 161705 December 1948, enclosed is a tabulation of traffic intervals in the London Bureau file of 12 and 13 December 1948. It is gratifying that transmission time over the London-New York circuit appears to be so low.

2. In the interest of making further reductions in the total lag between hour of broadcast and the time copy is received in Washington, it is requested that you make a study of the first four time columns of this tabulation and determine whether any processing time prior to transmission from Caversham can be eliminated.
